

Congratulations on your new countertop!

Proper care for your new countertop will help you protect your stone investment for years to come. Below are tips to clean your Dekton countertops. Dekton is highly resistant to staining.

Universal Cleaning Tips

- For general cleaning, use Q-Action with a sponge with soft fibers or neutral soap and water.
- To remove aggressive stains, use acetone or universal solvent.

Protection Tips

- Heat generating appliances as well as hot pans and pots directly from stove and oven can be placed on the countertops.
- Avoid direct contact with flame, chimney, barbeques etc.
- Avoid the use of metal sponges, abrasive particles, cutting with ceramic knives.
- Xgloss avoid cutting on the surface. Avoid dragging/hitting utensils against dark colors.
